INTERNATIONAL CONVENTION ON CIVIL LIABILITY FOR BUNKER OIL POLLUTION DAMAGE 2001 (BUNKER CONVENTION) (NMA_C18.2019.Rev.2)

PURPOSE:

To provide guidance on the application of financial security in accordance to the International Convention on Civil Liability for Bunker Oil Pollution Damage, 2001 (BUNKER).

CONTENTS:

BUNKER makes it compulsory for ships above 1,000 gross tonnage, flying the flag of a State Party or calling the port(s) of a State Party, to maintain insurance or other financial security, such as the guarantee of a bank or similar financial institution, to cover the liability of the registered owner for pollution damage in an amount equal to the limits of liability under the applicable national or international limitation regime, but in all cases, not exceeding an amount calculated in accordance with the Convention on Limitation of Liability on Maritime Claims, 1976, as amended.

Ships that call at ports of State Parties are specifically required to produce the Bunker Convention Certificate (BCC) issued by a State Party to attest that they have obtained adequate insurance coverage in accordance to BUNKER.

BUNKER was adopted to ensure that adequate, prompt and effective compensation is available to persons who suffer damage caused by spills of oil, when carried as fuel in ship's bunkers. The Convention applies to damage caused on the territory, including the territorial sea, and in Exclusive Economic Zones of States Parties.
